

PRODUCT CATALOG

CONNECTIONS YOU CAN TRUST

Premium security, CCTV adapters, high-definition audio/visual, and commercial datacom solutions designed for professional installers.

About AZCO Technologies

PREMIUM CONNECTIVITY SOLUTIONS SINCE 1998

Corporate Profile

AZCO Technologies Inc. has built its reputation on engineering, manufacturing, and supplying critical connectivity products that electronic security and audiovisual installers use daily.

We recognize that the success of a surveillance network or commercial AV installation hinges on the smallest links: the UTP video balun, the weather-shielded connector, the optical light sensor, or the PoE splitter. Because of this, our engineering focus remains strictly on reliability, ease of use, and competitive pricing.

By keeping product manufacturing standards high and operating our central distribution point in Des Moines, Iowa, we supply high-demand parts quickly to distributors and wholesalers throughout North America.

Logistics & Values

Our Philosophy

We provide data, low-voltage, security, AV, and wireless solutions that deliver superior value over the competition, without ever compromising on product longevity.

Centralized Logistics

Operating from our central hub in Des Moines, Iowa, we guarantee efficient logistics and fast transit times across the United States and Canada.

Table of Contents

1. HDMI & Audio/Visual Devices Page 4

High-performance HDMI extenders, audio/video converters, volume controls, and hospitality AV distribution modules.

2. IP & PoE Networking Components Page 10

Commercial-grade PoE switches, IP-over-coax extenders, industrial injectors, and passive PoE splitter pairs.

3. CCTV & Surveillance Accessories Page 15

Premium HD video baluns, night-vision infrared illuminators, security decals, and rugged CCTV storage units.

4. Tools, Wire & Security Management Page 25

LiteFence POF switches, cabling armor, professional compression tools, wall plates, siren strobes, and contact sensors.

HDMI & Audio/Visual Devices
